Greetings Auditor Mary Hull Caballero,

As a voter in Portland, Oregon I urge you to enforce the City Charter Section 3-301 on Mayor Ted Wheeler, which states, "a loan balance of not more than five thousand dollars ($5,000) from the candidate." Ted Wheeler is in violation of the city charter by $145,000 and there is no time to wait to be "authorized to do so by a court decision."

The election is November 3rd, less than a month away. The voters have spoken and we want fair elections when the other candidates are not breaking the rules, it matters that the money is frozen now before the election, there is nothing that can be done after the election that will equate to enforcing the violation now and preserving an equal playing field. We need a fair election. We do not want to live in a plutocracy.

If this action is beyond the scope of your job, I would really like a response on why it is not possible to enforce this rule.

Sincerely,
Jake Harbour
