

008 3-3

ORDINANCE No. 183907

Authorize a contract and provide payment for construction of the Chemically Enhanced Primary Treatment facility at the Columbia Boulevard Wastewater Treatment Plant Project No. E08910. (Ordinance)

The City of Portland ordains:

Section 1. The Council finds:

1. The Columbia Boulevard Wastewater Treatment Plant (CBWTP) treats the City's wastewater in accordance with State of Oregon Department of Environmental Quality (DEQ) issued NPDES permit requirements.
2. Recent facilities planning efforts have shown that projected wet weather flow from Eastside and Westside CSO may cause the CBWTP wet weather treatment to exceed permit limits. The CBWTP Facilities Plan Update recommended Chemically Enhanced Primary Treatment (CEPT) to reliably treat wet weather flow in the plant's primary clarifiers.
3. The Bureau of Environmental Services must provide additional treatment capacity to accommodate wet weather flows. That capacity increase involves addition of a CEPT facility at the CBWTP. The CEPT facility will increase/enhance TSS and BOD removal at the wet weather primary clarifiers by the addition of flocculant and coagulant chemicals.
4. The Bureau of Environmental Services (BES) has a need to construct a CEPT facility at the CBWTP.
5. The established cost is \$3,200,000. The level of confidence is high. Funds are available in the Sewer System Operating Fund, FY 2009-2010 Budget, Bureau of Environmental Services, Cost Center, WBS Element E08910.

NOW, THEREFORE, the council directs:

- a. The Commissioner of Public Affairs and Auditor are authorized to execute a contract with the lowest responsible bidder for the purpose described in Section 1.
- b. The Mayor and Auditor are hereby authorized to draw and deliver warrants chargeable to the Sewer System Operating Fund Budget when demand is presented and approved by the proper authority.

Passed by the Council,
Dan Saltzman
Commissioner of Public Affairs

Scott Gibson
