Permit Revision Application and Submittal Requirements

A Permit Revision is required when there are proposed changes to the project after the permit has been issued. This may arise due to discrepancies between the city-approved permit drawings and actual field conditions, or the customer has changed their mind about an aspect of the project. In all cases, a revision to the existing permit must be submitted, reviewed and approved.

Applicants will provide:

- ☑ A copy of this application
- ☑ Three (3) sets of plans that clearly reflect the proposed change(s).

  Drawings and calculations must be stamped and signed by the Architect and/or the Engineer of Record, if applicable.
- ☑ One (1) copy of the original city approved permit drawings. (NOTE: If your project has an assigned process manager please contact them regarding submittal of the revision).
- ☑ Two (2) sets of calculations, if applicable
- ☐ Inspector's correction notice, if revision is due to an inspection correction
- ☑ Revision fee (paid at time of submittal)

Structural Checksheet Response

Permit #: **11-158407-REV-01-CO** **Date: 1/11/13**

Customer name and phone number: Chris Nickerson 206-679-4164

Note: *Please number each change in the '#' column. Use as many lines as necessary to describe your changes. Indicate which reviewer's checksheet you are responding to and the item your change addresses. If the item is not in response to a checksheet, write* **customer** *in the last column.*

#	Description of changes, revisions, additions, etc.	Checksheet and item #
1	I have re-run the Kzt factors in 4 directions and am still getting 1.0 for all directions. Please see the revised calcs. You will see that in all cases either the site is too far from the crest (distance "x" is large) or H/Lh < 0.2.	Checksheet dated 12/19/12 Item 1
2	The revised calculations now consider 40 mph wind speed on ice. However, please note that ASCE 7, figure 10-5 shows this site to be in the 30mph zone.	Checksheet dated 12/19/12 Item 2
3	Sheet RF-1 is correct. The frame orientation that is shown on the old S-2 sheet is of the lower base frame (i.e. the smaller inner triangle). RF-1 shows both the inner frame and the larger upper frame.	Checksheet dated 12/19/12 Item 3
