PROJECT GENERAL NOTES

1. Include all items for a complete installation whether or not shown or described.
2. Meet requirements of applicable codes, regulations and authorities having jurisdiction. This includes, but is not limited to, the Oregon Structural Specialty Code (IBC), Americans with Disabilities Act (ADAAG), the City of Portland Bureau of Development Services and the City of Portland Bureau of Fire and Rescue.
3. Mechanical and Electrical items are Contractor-designed. Provide required documentation for Owner review and permits. Provide as-built documents per Owner requirements.
4. Review all documents, building requirements and field conditions before proceeding. Notify the Designer and Owner of any discrepancies between the documents and field conditions before proceeding.
5. Do not scale drawings. Written dimensions govern.
6. Provide reinforcement in walls and ceilings as required for support of casework and accessories.
7. Submittals include, but are not limited to, samples of paint, solid surface and tile, shop drawings for counters, layout drawings for tile and product data sheets for all toilet accessories, plumbing fixtures and light fixtures.
8. Provide shop drawings at large scale showing lavatory counters. Include required supports, adjacent construction and toilet accessories.
9. Remove materials and prepare surfaces as required to receive finishes and items indicated.
10. Use epoxy grout at floors.
11. Repaint all ceilings and walls not indicated to receive new tile. Paint door frames.

PROJECT GENERAL NOTES - CONTINUED

12. Align wall tile joints with floor tile joints where possible. Where wall tile cannot align with floor tile, center wall tile on wall as shown in elevations.
13. Provide Designer with Laticrete, or similar, epoxy grout color options.
