**Subject:** Liquefied Propoane

Hello,

My name is James and I am a 4th generation Portlander with a 5th generation child. I have learned that there is a proposal to amend environmental protection codes along the Columbia river to allow a liquefied propane storage facility to be built by a foreign corporation. NO Please continue Portland's Progressive direction which President Obama has awarded the city for and DO NOT allow this.

Thank you

James Tyree II
