**Site Address:** 6217 SW GARDEN HOME ROAD

**Legal Description:** TL 5700 0.35 ACRES, SECTION 19 1S 1E; TL 5600 0.30 ACRES,  
SECTION 19 1S 1E

**Plan District:** None

**Zoning:** R10: Single Dwelling Residential

**Land Use Review:** Type III, CU AD: Conditional Use and Adjustments

**Proposal:** Applicant, Tualatin Valley Water District ("TVWD"), operates a water reservoir and distribution facility at real property generally described as 6217 SW GARDEN HOME ROAD (legal description above-hereafter referred to as the "Site"). The other Applicant, Garden Home Water District, is the owner of the Site.

Currently located on the Site are two steel water tanks, each with the capacity of .5 million gallons ("MG"). One water tank was constructed in 1952 and the other water tank was constructed approximately ten years later. TVWD proposes to upgrade and redevelop the water tank facility at the Site by demolishing the existing water tanks and replacing them with a single 2 MG concrete reservoir. TVWD notes that the existing tanks are approaching 50 and 60 years old and do not meet current codes for seismic standards, nor do they contain an ideal amount of storage capacity to provide an adequate supply of water to the surrounding community.

The existing tanks are approximately 45 feet in height and the proposed concrete reservoir will be approximately 46 feet in height. The Site has a fenced compound around the two water tanks, with an open area to the southwest landscaped with low plants and shrubs with wide gravel pathways and public benches. The east and northern portion of the Site is landscaped with a relatively dense and mature border of sequoia trees. TVWD notes that a few of these trees will be removed to accommodate the improvements, but the majority will remain and be preserved.

At the time of the public hearing TVWD was requesting two Adjustments. Per Exhibits H.40b and H.48 TVWD now requests only one Adjustment. The remaining Adjustment, if granted, would allow vehicle access areas on the Site to remain in gravel rather than be paved with impervious asphalt.

This application triggers a Type III Conditional Use review due to the extent of the redevelopment of an existing conditional use in a residential zone. The requested Adjustment is reviewed concurrently.

The appeal hearing before the City Council was opened in the Council Chambers, 1221 SW 4<sup>th</sup> Avenue on July 14, 2011 at approximately 3:00 p.m. At the conclusion of the public hearing and after hearing public testimony, Council voted 3-1 to deny the appeal of the Ashcreek Neighborhood Association and uphold the Hearings Officer's decision.

Based on evidence in the record and adoption of the Council's Findings and Decision in **Case File LU 10-200954 CU AD** and by this reference made a part of this Order, City Council hereby denies the appeal of the Ashcreek Neighborhood Association and upholds the Hearings Officer's decision to approve with conditions a conditional use to demolish two water tanks and replace with one water reservoir not to exceed 2 million gallon storage at 6217 SW Garden Home Road.

## **DECISION**

**It is the decision of Council to deny the appeal by Ashcreek Neighborhood Association and uphold the approval of the Hearings Officer for:**

Approve:

- A Conditional Use to demolish two water tanks and replace with one water reservoir not to exceed 2 million gallon storage capacity consistent with Exhibits H.41, H.41a, H.41b, H.41c, H.41d, H.41e and H.41f;
- An Adjustment to 33.266.130.D.1 to allow vehicle areas on site to remain in gravel;

subject to the following conditions:

- A. As part of the building permit application submittal, the following development-related conditions (B through D) must be noted on each of the four required site plans or included as a sheet in the numbered set of plans. The sheet on which this information appears must be labeled "ZONING COMPLIANCE PAGE - Case File LU 10-200954 CU AD." All requirements must be graphically represented on the site plan, landscape, or other required plan and must be labeled "REQUIRED."
- B. In order to ensure that visual appearance remains similar to the existing facility, the new facility must utilize the same black finish on the existing chain link security fence and any new sections of security fencing must have the same black finish.

- C. Any plant materials that need to be substituted in lieu of those called out in the landscaping plan should be native species, as recommended by the Bureau of Environmental Services. Applicant shall maintain all berms, trees, shrubs, pathways, pavers and ground cover consistent with Exhibit H.40d.
- D. Applicant shall submit to the Bureau of Development Services, as part of the building permit review process, a specific Emergency Notification Plan that has been approved by the City of Portland Office of Emergency Management, to provide emergency notice alerts to owners/occupants of real property with an elevation of 396 feet elevation or lower (such notification area not to extend beyond 500 feet from any Site boundary).

**IT IS SO ORDERED:**

JUL 20 2011

Date

Mayor Sam Adams  
Presiding Officer at Hearing of  
July 14, 2011  
3:00 p.m. Session
