10005	Portland	Portland	Pedestrian Network Completion Program	Citywide	Gaps and deficiencies in Portland's pedestrian network present significant barriers to pedestrians. Many of these can be remedied through modest expenditures to address the most critically needed improvements. These projects should contribute to an increase in safe walking as disincentives to usage are eliminated and the continuity of the pedestrian network is improved. Example projects include sidewalk gap infill, sidewalk improvements, safer shoulders, shared streets, pathways, trails, crossing improvements, wayfinding improvements, accessibility improvements, and signal modifications. The program will also work to identify and implement needed improvements in designated Pedestrian Districts.	\$ 60,200,000	Yes	Years 1 - 20
10006	Portland	Portland	Bikeway Network Completion Program	Citywide	Gaps and deficiencies in Portland's bikeway network present significant barriers to bicyclists. Many of these can be remedied through modest expenditures to address the most critically needed improvements. These projects should contribute to an increase in safe bicycling as disincentives to usage are eliminated and the continuity of the bikeway network is improved. Example projects include new bike lanes and sharrows, improvements to existing bikeways, wayfinding improvements, colored bike boxes and lanes, and signal modifications. This program will coordinate with paving projects to ensure that new striping designs are developed ahead of time and implemented in conjunction with paving.
