

## ORDINANCE NO. 183837

Authorize contracts with Black & Veatch, Michael Willis Architects, and CH2M Hill for the Bull Run Supply Treatment Project (Ordinance)

The City of Portland ordains:

Section 1. The Council finds:

1. The City of Portland Water Bureau (PWB) requires design services for the design of an ultraviolet (UV) light disinfection system for additional treatment of the drinking water from the Bull Run watershed.
2. The UV system will be designed to provide Cryptosporidium inactivation as required under the U.S. Environmental Protection Agency (EPA) Long Term 2 Enhanced Surface Water Treatment Rule (LT2).
3. The design and development of plans and specifications are for a Design-Bid-Build construction contract for UV water treatment facilities and corrosion control systems including the associated building structures and support systems. This shall include UV light disinfection at Headworks and corrosion control process modifications at Lusted Hill.
4. Construction management services shall be retained by the Portland Water Bureau under these contracts only if the project moves forward to construction.
5. The formal Request for Proposal was utilized for these contracts in accordance with the City Code for Professional Services Contracts.
6. The selected contractors are using eighteen (18) sub-consultants that are State certified M/W/ESB firms. These firms are estimated to receive \$2,957,280 in work, which is approximately 20.5% of the total contracts.
7. The total not to exceed value of the combined contracts is \$11,890,625. The confidence level for this contract is low. Funding for the project is available in the FY 2009-10 Budget, has been requested in the FY 2010-11, and will be requested in FY 2012-13 and FY 2013-14 Budgets.

NOW, THEREFORE, the Council directs:
