**Attachments:** Portland City Counsel.pdf

Ms. Karla Moore-Love,

May I make an appointment to speak before Portland' City Counsel regarding the information I learned from Mrs. Rebecca Esau, Land Use Services-Division Manager.

Mrs. Esau briefly informed me the City made an oversight when they failed to rezone the property immediate adjacent to my property that has the same Errol Creek running on the surface environmentally protected. Additionally, she indicates this same oversight occurred when the City failed again to rezone similar properties West of me environmentally protected. All these properties have Error Creek crossing their property boundaries.

In Mrs. Esau phone message to me, she informed me two City employees who originally changed the zoning on my property have since left the employment of the City of Portland. I wish to obtain a writing explanation as to why this zoning oversight occurred in the first place; and. I wish to obtain Mrs. Esau phone comments in writing in the event she too should leave the City's employment.

Furthermore, I have asked Mrs. Esau to explain the City's criteria for establishing the environmental boundaries. I asked for this explanation because it appears there is on reasonable explanation to me as to how the environment boundaries were established on my property in the first place. Were the environmental boundaries on my property arbitrarily established by these prior two City employees? Is there set criteria the City uses to establish the boundaries?

I look forward to learning when I may speak before the City Counsel; and have a written explanation as to why an oversight by two prior City employees failed to rezone similar properties having Errol Creek running through them.

It appears odd to have been given a simply explanation as two prior City employees made an oversight. Their oversight severely restrict the usage of my property when similar properties having the same characteristics were not rezone.

The City of Portland's various bureaus have since purchased the majority of the properties that were affected by this zoning oversight.

I am attaching a document outlining the affected properties that were not zoned environmentally protected with Error Creek marked in red.

Sincerely,

Chris Johnson
