Dear City Council;

10-12-10

188052

I realize that my written words are different than my image on a camera.

I realize that we bring it to "Black Lives Matter" for a spiritual reason.

I am a homeless person who was driven here by a man who tables himself lifetimes to be here on the earth to bother me. He tables himself lifetimes to be in various uniforms such as security personnel uniforms and cop uniforms.

He ~~has~~ endeavours to use words of law or to misuse them. When I was a child, he made a decision to persecute me in such a way that made my father seem scary. If he chose otherwise, he would be able to use a word of law at this time and now cannot. I'll be talking and writing about him more & more.

I am homeless and need a home of my own that is perfect. I live apart of a great family that can achieve things seals & locks of virtue w/ me having my own home.

Sincerely,
David Rogers
