Purpose of proposed legislation and background information:

City Code authorizes the City Auditor's Independent Police Review (IPR) to hire a qualified expert to review closed investigations pertaining to officer-involved shootings (OIS) and in-custody deaths (ICD) on an ongoing basis. Expert assessments are necessary to ensure that the Portland Police Bureau (PPB) is made aware of any emerging best practices related to deadly force, including police practices that increase officer safety and reduce the necessity of deadly force.

There are currently ten closed OIS investigations that have not yet received a review from a qualified outside expert, with the possibility of at least one additional OIS investigation reaching closure and becoming eligible for review during the three-year contract period.

Financial and budgetary impacts:

This legislation will not generate or reduce current or future revenue coming to the City. Expert reviews are included in budget planning to meet the expectation established in City Code that such reviews will take place.

No positions will be created, eliminated, or re-classified in the current year or in future years.

The total costs of the three-year contract will not exceed \$140,000.

Community impacts and community involvement:

The community is well served by having an independent expert regularly demonstrate that the Portland Police Bureau has provided a reasonable and appropriate level of evaluation of officer-involved shootings and in-custody deaths.
