Tabor Reservoirs Historic Structures Report in order to provide expert advice on the condition, maintenance, rehabilitation and preservation of the historic visual features within the Mt. Tabor Park Reservoirs Historic District. The summary findings of the report indicate that while the historic features in the district are in fair to good condition, are largely intact, and reflect their original construction, there are various projects that need to be completed in the near, mid and far term timeframes to prevent and remedy deterioration of those structures. This report forms the basis for discussion between the Water Bureau and the Mt. Tabor Neighborhood Association (MTNA) regarding the City's obligation to maintain, repair and preserve the reservoirs as an existing and future City asset. #### TERMS AND CONDITIONS

#### 1. Standard of Care

Consultant shall perform all services under this contract using that care, skill, and diligence that would ordinarily be used by similar professionals in this community in similar circumstances.

# 2. Effect of Expiration

Passage of the contract expiration date shall not extinguish, prejudice, or limit either party's right to enforce this Contract with respect to any default or defect in performance that has not been corrected.

# 3. Order of Precedence

This contract consists of these Terms and Conditions, the Statement of Work and Payment Schedule, and any exhibits that are attached. Any apparent or alleged conflict between these items will be resolved by using the following order of precedence: a) these Terms and Conditions; b) Statement of Work and Payment Schedule; and c) any exhibits attached to the contract.

#### 4. Early Termination of Contract

- The City may terminate this Contract for convenience at any time for any reason deemed appropriate in its sole discretion. Termination is effective immediately upon notice of termination given by the City.
- Either party may terminate this Contract in the event of a material breach by the other party that is not cured. Before termination is permitted, the party seeking termination shall give the other party written notice of the breach, its intent to

terminate, and fifteen (15) calendar days to cure the breach. If the breach is not cured within 15 days, the party seeking termination may terminate immediately by giving written notice that the Contract is terminated.

5. Remedies and Payment on Early Termination

- (a) If the City terminates pursuant to 4(a) above, the City shall pay the Consultant for work performed in accordance with the Contract prior to the termination date. No other costs or loss of anticipated profits shall be paid.
- (b) If the City terminates pursuant to 4(b) above, the City is entitled all remedies available at law or equity. In addition, Consultant shall pay the City all damages, costs, and sums incurred by the City as a result of the breach.
- (c) If the Consultant justifiably terminates the contract pursuant to subsection 4(b), the Consultant's only remedy is payment for work prior to the termination. No other costs or loss of anticipated profits shall be paid.
- (d) If the City's termination under Section 4(b) was wrongful, the termination shall be automatically converted to one for convenience and the Consultant shall be paid as if the Contract was terminated under Section 4(a).
- (e) In the event of early termination the Consultant's work product before the date of termination becomes property of the City.

6. Assignment

Consultant shall not subcontract, assign, or transfer any of the work scheduled under this agreement, without the prior written consent of the City. Notwithstanding City approval of a subconsultant, the Consultant shall remain obligated for full performance hereunder, and the City shall incur no obligation other than its obligations to the Consultant hereunder. The Consultant agrees that if subconsultants are employed in the performance of this Agreement, the Consultant and its subconsultants are subject to the requirements and sanctions of ORS Chapter 656, Workers' Compensation.

7. Compliance with Applicable Law

Consultant shall comply with all applicable federal, state, and local laws and regulations. Consultant agrees it currently is in compliance with all tax laws. Consultant shall comply with Title VI of the Civil Rights Act of 1964 and its corresponding regulations. # STATEMENT OF THE WORK AND PAYMENT SCHEDULE

# INTRODUCTION

In 2008, the City of Portland (City) Water Bureau (PWB) contracted with Cascade Design Professionals and historic architect, Robert Dortignacq, to develop the Mt. Tabor Reservoirs Historic Structures Report in order to provide expert advice on the condition, maintenance, rehabilitation and preservation of the historic visual features within the Mt. Tabor Park Reservoirs Historic District. The summary findings of the report indicate that while the historic features in the district are in fair to good condition, are largely intact, and reflect their original construction, there are various projects that need to be completed in the near, mid and far term timeframes to prevent and remedy deterioration of those structures. This report forms the basis for discussion between the Water Bureau and the Mt. Tabor Neighborhood Association (MTNA) regarding the City's obligation to maintain, repair and preserve the reservoirs as an existing and future City asset. Final findings for Land Use Application LU14-218444 HR EN gives direction that the report will be used to provide direction as to what projects will move forward for preservation of the historic resources. Tabor Reservoirs and Bull Run served in the City's water delivery system. The Consultant shall be required to develop and submit a Design Advice Request to the Historic Landmarks Commission followed by submission of a Type II Land Use Review.
