Glad the 12th will work for you.

Sorry, City Code allows for only one Communications a calendar month. But I now have an opening on May 3rd if that date will work for your 2nd topic?

Thank you,

Karla

Yes, that sounds great. See you in on the 12th! Can I move my other topic to the 26th?

Hello,

I have an opening for a Communications slot on April 12th if you are able to attend change from April 26th?

The meeting is at the same time, 9:30 a.m., but we will be located in the Portland Building Auditorium, 1120 SW 5th Ave.

If you would let me know by 5pm tomorrow, I would appreciate it.

Regards,

Karla

Hello,

Sorry for the delay in responding.

I will list you on the Wednesday, April 26th Portland City Council agenda regarding "the fire service sprinkler line".

The next available date for you to speak regarding "reducing differential exposure to police stops" is May 31st. Let me know if that date will work for you.

Regards,

Karla

That date sounds fine, if it is still available.

I have a list of some ideas that I wanted to present the city Council, and so I wanted to sign up for another communication for a future date. Can I basically do that now or should I wait for each one to happen and then ask for a new slot?

5/3
Topic:

My next one is a concept for reducing differential exposure to police stops. Differential exposure is the notion that poor people get hit by the police more because they live in areas of high 911 calls. Police stops in Oregon (And nationally) are primarily through traffic violation.

I'm proposing a "month of Jubilee" and which police officers in Portland would be directed not to write tickets for headlights or other vehicle violations, but to hand out a flyer listing cooperating auto parts and auto repair shops. Those shops would get a subsidy to lower the cost of lightbulbs, reflectors, and other improvements to bring the poorest population (And all citizens) into compliance with the law.

Police officers get to be "the good guys" by not have to into even write a repair ticket which requires follow up in court. They also get to increase the number of basic contact stops where they would cursorily check ID, registration, and insurance. They would inform the population that enforcement on these items will increase heavily after the month of Jubilee is over.

While there may be a temporary loss of revenue due to lower ticketing for one month, increased enforcement in the following month will bring in some extra, and Portland will be able to say that the function of police is to bring the population into compliance with the law, not to simply chase revenue by punishing.

Hello,

Thank you for your request to address the Portland City Council. The next available date to speak Wednesday, April 26th. Please let me know if this date will work for you.

Communications are the first item on the official agenda and we start at 9:30 a.m. You will have three minutes to address the Council but you may also submit written material, please provide seven copies.

Communications allow the Council to hear of issues that interest our community members but does not allow an opportunity for dialogue.

Council takes place at City Hall, Council Chambers, 2nd floor.

Regards,

Karla

email: deadletter@watershedpdx.com

Subject: The fire service (sprinkler) line is a required water bill that comes quarterly, and has seen a 260% increase - for a service which *literally* has never flowed any water. Currently it's costing the building \$1600 per year, and it used to cost \$640. Since every new construction is pretty much required to be sprinklers, this means that across the city businesses are getting hit with a secret fee.
