Dear Kim and Karla,

I would also like to take a three minute spot if it is available. Best regards,

Ibrahim

 Thank you, Karla.

OK, that is very good to know. I will see if other Board members and committee leads can join me and will cc: a couple here, with your request.

Our UNESCO Chair and I had close to 30 minutes last time, so I will see what is possible to cover in 3-15 minutes.

Please put me down for the 17th, with these details:

Communications are the first items on the official agenda and we start at 9:30 a.m. Currently, there are 5-three minute spots available. To sign up for a spot everyone would have to send in their own request, include name, address, phone number, date you wish to speak and topic.

Let me know how many spots you would like to take as soon as possible.

Regards,

Karla

Thanks so much, Karla!

What time are you thinking on May 17 and how much time is available?

Amanda, I am so very sorry to hear about the disruptive behavior you have all been facing. We certainly would not want to trigger any protests. I can't imagine that we could cover the material needed in 3 minutes....

Let's talk more.

Best,

Kim

Thank you for the update, Dr. Smith. As you may have heard, Council meetings have been disrupted by protesters for several months. While we are trying a new approach, I'm hesitant to schedule a GPSEN update not knowing whether guests will be allowed to speak, or how delayed the meeting may become.

Possibly the best thing to do would be for you (and colleagues) to sign up for three-minute Citizen Communications spots. Send a written request to Karla with your name, address, and a brief title for your comments. I realize three minutes is not much time, but if there are several people willing to sign up from your team, you can string together the information from one person to the next.

While sometimes protesters start yelling right away, often they wait until later in the meeting - so presenting under Citizen Communications is probably your best option. Alternatively, you could wait until later in the year, when it's possible meetings may become more predictable again.

I'm happy to know the work proceeds!

Amanda

Subject: City Council Presentation

Dear Commissioner Fritz and Ms. Moore-Love,

I hope this finds you both well.

If you recall, the Greater Portland Sustainability Education Network (GPSEN) presented to the City Council in February, 2015. You asked that we come back each year and give an annual report. Two years later, I hope that you will still extend your invitation and welcome us to provide an update on local, regional, national, and international efforts.

With our continued recognition as a Regional Center of Expertise (RCE) on Education for Sustainable Development (ESD), by United Nations University and UNESCO, thanks in great part to the City of Portland's efforts and the many good people and organizations in our region, we have much to share. We have grown significantly and have accomplished a great deal since our last presentation (annual report attached), with GPSEN now recognized as one of the leading RCEs in the world (154 RCEs in the world; 5 in the U.S.).

If we may present at a City Council meeting, we would love to provide information on our efforts to support collaboration across sectors and seek your advice on how we can better support Portland's sustainability mission, including:

- Updates on our current programs in greater Portland
- Work on Agenda 2030's Sustainable Development Goals, which were adopted by UN Member States in September, 2015.
- Priority action areas from the Global Action Programme on Education for Sustainable Development (GAP). Note that I was the lead author on the "*GAP Implementation Recommendations for the United States of America*", which the State Department submitted to UNESCO, in December, 2015. (see attached)

We hope to have the opportunity to meet with you and your fellow Commissioners. Could you please advise us on how that would be possible?

Sincerely,

Kim Smith
