Subject: City Council Agenda Item No. *838

Mayor Wheeler and Commissioners Fish, Saltzman, Fritz, and Eudaly,

I am writing to ask that Council Agenda Item No. *838 be removed from today's agenda.

My request is in the interest of transparency and building community trust. The item is set as an emergency and there has been no opportunity for community review and input as noted in the Impact Statement.

At a minimum, the item should be set on the agenda for a first and second reading. I assume that there would be amendments that could address community concerns for input and issues that come up through detailed review of the issue.

Thanks,
Michelle DeShazer

Subject: Please oppose Item No *838

Dear City Council,

I urge you to oppose the passage of Item No *838, particularly as an emergency item. Any change to the process that conceals procurements should be carefully considered, have community involvement, and not hurried through city council.

Sincerely,
Lisa Wright
