Dear City Council,

Writing to re-iterate opposition to re-classifying SE 20th Avenue.

Imagining an approved proposal against the wishes of residents is devastating to think about. Imagining a proposal, that has not addressed any one of the neighborhood supplied concerns suggests that the quality and livability of our neighborhood is being sacrificed.

In the evidence provided by planners to initiate this change, the sacrifice under consideration has not been adequately justified. Please ask yourself, what elements are being included in this re-classification that addresses our concerns and the livability of our neighborhood?

Today, without change of classification, I am asking for improved management of vehicular speeds, tractor trailer volume and pedestrian safety. When I think about the car that drove into my front yard two years ago, I also think about the safety of simply sweeping my sidewalk in the future.

Regards,  
Nick, Stacy and Mateo  
1834 SE 20th Avenue
