Subject: UPNA Comments on the Transportation System Plan Stage 3

The University Park Neighborhood Association board and Land Use Committee have serious reservations and concerns about the TSP Stage 3 document in that it eliminates over 20 years of discussions and commitments to the neighborhoods. There is no reason provided for eliminating the neighborhood plans and goals found in Appendix B.

These concerns have been presented to PBOT earlier and as a result the UPNA asks that the record be kept open for another week to provide additional concerns.
