

As you know I have been showing up at these Council meeting for 11 months now. I needed to understand and learn your process and I would like to say you people have a tough job,

Let's pretend I'm the moderator for your reelection campaign or a hiring HR person interviewing you for a new job you are applying for.

I want this on the record,

For almost 11 months now I been asking the Mayor and council and in the past 20 other City employees with no help regarding the question I have been asking.

Mr. Mayor 4 months ago you said this is a legal question and I will have the lawyers give us an answer but that never happen. I have been asking for your opinion not a legal answer although the answer would be the same. Every week I hear your opinion regarding many issues why not give an opinion on my question?

I will give you the floor for an answer now

I'm not asking for your opinion to my question because I want to bring a suite against the city. The Portland police should have done their job back in 08 and investigate a hit and run on my building. It took no time at all for the City to send Police investigators to my building when the homeless burned down my building It is their jurisdiction now millions of dollars have been lost.

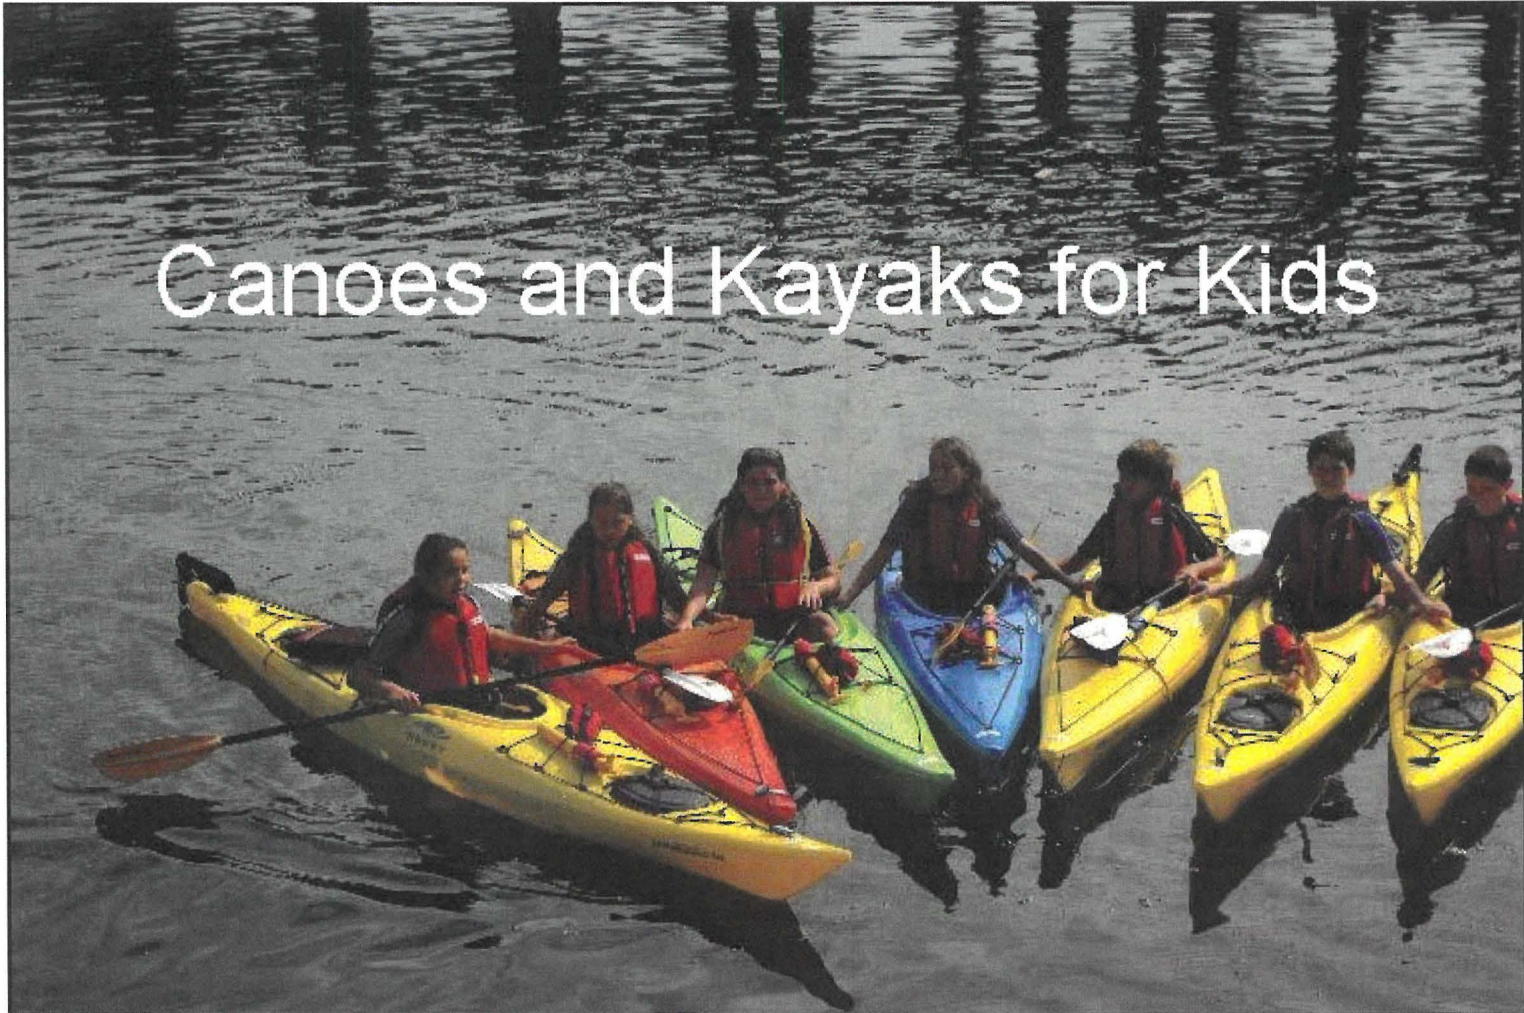

Let me get to the point. The City cost me millions of dollars by not doing their job in 08 and not removing the homeless when reported. I do have a case number for that report. As you may know the homeless started the fire from under my building and it completely burn down

I will be 70 in December and I would like to partner up with the City and give back to the community, a wonderful plan to build 3 scorer fields, storage and launching area for canoes and kayaks for kids as well as install a dock on the Willamette River for our veterans to moored restore WW II ships at this site. This is a for-profit operation and a government partnership with a non-profit group. I would like to talk about a fast track approval and permitting process. This project will be fun and create jobs

Let's call it the Herman/Fish facility

Is there a commissioner wanting to meet with my group and explore the need for this feasibility and a plan for the Portland community?
