

**IMPACT STATEMENT**

**Legislation title:** Amend Intergovernmental Agreement with Oregon Department of Transportation to undertake the NNE Columbia Intelligent Transportation System (ITS) Project. (Ordinance No 187555; Amend Intergovernmental Agreement No. 30,517)

**Contact name:** Willie Rotich

**Contact phone:** 3-7679

**Presenter name:** Peter Koonce

**Purpose of proposed legislation and background information:**

The project will construct ITS infrastructure along N/NE Columbia Corridor (from Columbia at 41<sup>st</sup> to Columbia/Lombard at Burgard). The project will install CCTV cameras, vehicular traffic and bike monitoring stations, fiber communications, Bluetooth readers, freight and transit priority, and integrate most of these devices with City's ODOT's, and Tri-Met's Transportation Centers. This project is part of the larger City and Regional Advanced Traffic Management System, and provides the minimum project elements that will yield significant benefits in the corridor.

**Financial and budgetary impacts:**

There will be no long financial impacts for the City. All changes along the corridor will improve and update traffic signal equipment.

There are no negative impacts

**Community impacts and community involvement:**

This project will improve traffic signal coordination along N/NE Columbia Blvd. It will also improve transit and freight travel times.

**100% Renewable Goal:**

This action will have no impact on the City's total or renewable energy use.

**Budgetary Impact Worksheet****Does this action change appropriations?**

☐ **YES:** Please complete the information below.
