

## IMPACT STATEMENT

**Legislation title:** Five-Year Update on the Neighborhood Prosperity Network

**Contact name:** Dana DeKlyen

**Contact phone:** (503) 823-3312

**Presenter name:** Kimberly Branam and Dana DeKlyen

**Purpose of proposed legislation and background information:**

At the January 11, 2018 Portland City Council meeting, Prosper Portland staff will provide a five-year update on the Neighborhood Prosperity Network (Network).

On May 11, 2011, the Prosper Portland Board endorsed the City of Portland Neighborhood Economic Development Strategy (NED Strategy). The NED Strategy recognized that compared to other cities its size, Portland lacks capacity in community-based organizations that focus on economic development.

In April 2012, City Council approved the creation of six micro-URA districts that surround the Neighborhood Prosperity Initiative (NPI) Districts.

Acknowledging that the NPI Program and Portland Main Street initiatives are largely similar and have complementary objectives, on May 23, 2012, the Prosper Portland Board, through Resolution No. 6944, approved Commercial Corridor Business Development Program Guidelines, effectively combining the NPI Program and Portland Main Street Program into the Neighborhood Prosperity Network of the following eight community partner organizations that are working to foster economic development.

1. Alberta Main Street
2. Cully Blvd Alliance
3. Division-Midway Alliance
4. Historic Parkrose
5. Jade District
6. Our 42nd Avenue
7. St. Johns Center for Opportunity
8. The Rosewood Initiative

**Financial and budgetary impacts:**

The five-year update does not request an increase of funding for the Network. It is meant to provide background of the community-drive economic development activities that have occurred over the last five years, and look forward to the exciting program.

**Community impacts and community involvement:**

Prosper Portland has created a community-driven economic development program which allows those closest to the issues to create solutions that meet the needs of the community. In particular, communities that have been historically underserved and underrepresented are an integral part of the transformation of their neighborhoods. Community members and

business owners benefit directly from the district investments through programs or through key leadership roles on boards, committees and/or outreach activities or events.

At the January 11, 2018 City Council meeting, several community stakeholders (including business owners and a district executive director) will provide testimony to City Council on their participation in the Network.

**100% Renewable Goal:**

The Network does not directly impact the City's goal of meeting 100 percent of community-wide energy needs with renewable energy by 2050.
