### **NEW EVERGREEN AND DECIDUOUS TREES:**

Trees shall be maintained and protected on the site after construction and for the life of the development (50-100 years or until any approved redevelopment occurs in the future). During the life of the development, trees approved for stormwater mitigation shall not be removed without approval from the City. Trees that are removed or die shall be replaced within 6 months with like species. Trees may be pruned for safety purposes only; however, if a tree is planted near a building, pruning to protect the structure is recommended.

The trees selected shall be suitable species for the site conditions and the design intent. Trees should be relatively self-sustaining and long-lived. Native conifers are highly encouraged, as many of these trees naturally grow in harsh/rocky conditions. Long-term irrigation is not required. New deciduous trees must be at least 2 caliper inches and new evergreen trees must be at least 6 feet tall to receive simplified approach credit. Trees planted to meet stornwater facility planting requirements cannot also receive simplified approach credit.

By City ordinance, the City Forester is authorized to set standards for tree sizes planted on publicly owned lands and public rightu-of-way. A permit is required from Urban Forestry to plant, prune, or remove right-of-way trees. Right-of-way trees r'all be at least 2 caliper inches for residential and 3.5 caliper inches for other zones, including commercial areas. Fox park lands and other public areas, the tree standard is 3.5 caliper inches.

#### Approved Trees

The following tree species are approved outright for use as simplified approaches. Other species may be given simplified approach credit, as approved by BES.

| Acer circinatum          | Fraxinus latifolia                      | Quercus chrysolepis      |  |  |
|--------------------------|-----------------------------------------|--------------------------|--|--|
| Acer macrophyllum        | Juniperus occidentalis Quercus garryana |                          |  |  |
| Alnus rubra              | Libocendrus decurrens                   | Rhamnus purshiana        |  |  |
| Arbutus menziesii        | Pinus contorta                          | Sequoia sempervirens     |  |  |
| Castanopsis chrysophylla | Pinus monticola                         | Thuja plicata            |  |  |
| Chamacyparis lawsoniana  | Pinus ponderosa                         | Tsuga heterophylla       |  |  |
| Cornus nuttallii         | Pseudotsuga menziesii                   | Umbellularia californica |  |  |
