

**ORDINANCE No. 189025**

\*Increase contract with Qwest Corporation, dba Century Link QC, for ongoing land line and data transport services in the amount of \$7,500,000 (Ordinance; amend Contract No. 30003662)

The City of Portland ordains:

Section 1. The Council finds:

1. The Office of Management and Finance, Bureau of Technology Services (BTS) is responsible for the support and upkeep of the City's communications systems. To this end, the Bureau of Technology Services provides and supports land line and data transport services for City bureaus. These services are divided into three distinct areas:
  - The Centrex and miscellaneous analog service has 1,330 combined lines that provide dial tone and other features such as transfer and conference calls connecting the City to internal and outside callers.
  - Fiber and coaxial network transport services are the City of Portland's largest. These are considered the backbone of the City's infrastructure allowing the City to interconnect multiple sites and network services. These services provide portions of the City's communications infrastructure (interconnectivity between the City of Portland buildings that support data transfer). The contractor provides and maintains these services to which the City of Portland subscribes.
  - T1 – Digital or analog transmission line services are those connections that provide data or voice services. These facilities are used for data and voice connections to many of our fire stations, parks facilities, police precincts, and other off-site locations. These services enable City staff to have access to email, dial tone, the Internet and other City applications.
2. In accordance with City Code 5.33.160, the City established a cooperative contract 30003662 utilizing the State of Oregon, Department of Administrative Services' agreement #5223 PA.
3. On September 20, 2013, in accordance with PCC 5.33.160, the City posted a Notice of Intent to Award a Contract to Qwest Corporation dba CenturyLink QC. No comments were received.
4. Qwest Corporation dba CenturyLink QC and Qwest Communications Company has a current City of Portland business license tax account, is in compliance with the Equal Benefits Program, and their EEO Certification is current. Qwest Corporation dba CenturyLink QC and Qwest Communications Company is not a State certified firm. The Bureau's level of confidence for this increase to the contract is high, as there is very

good historical information showing purchases made for these types of services for the bureau.

NOW, THEREFORE, the Council directs:

- a. The Chief Procurement Officer is authorized to amend the contract with Qwest Corporation, dba Century Link QC, to continue to provide land line and data transport services in the amount of \$7,500,000, provided the amendment has been approved as to form by the City Attorney's office.

Section 2. The Council declares that an emergency exists as a delay in proceeding with executing this agreement may result in additional expenses and delay in providing a mission critical, public safety and on-going telephone communications system for the City of Portland; therefore, this Ordinance shall be in full force and effect from and after its passage by the Council.

Passed by the Council: JUN 20 2018
