TYPE 2 - STEEL AND GLASS

CANOPY | GARAGE ENTRY, RETAIL, TYPICAL CANOPIES

TYPE 3 - FACETED COMPOSITE METAL PANEL

Optimum performance in a 12.0 by 12.0mm (0.5in) profile with a single strip PCB using LEDs in White Spectrum™ or EQ™ performance grades.

High output V12S-13 model gives up to 1149lm per metre (350lm/ft) output while V12S-07 model provides up to 634lm per metre (193lm/ft).

Ideally suited to concealed lighting applications such as coving, uplighting, shelves, under ledges etc. IP67 version for wet locations with clear or opal cover.

Length increments of 100mm (4in) up to 2005mm (6ft 7in) with Click-Connect PowerTHRU connectors allowing longer light runs. Fixed mount or rotation mount allowing up to 90° rotation for light throw adjustment.

LIGHT FIXTURE - LUMINO VECTOR V12S

Key Features

≤ 1149lm/m 350lm/ft

≤ 13w/m 4w/ft

≤ 88lm/w

≤ 88 CRI
