

7th Ave Greenway Cheat Sheet

- The 7th ave greenway is a proposed route of the Lloyd to Woodlawn greenway project.
- The proposed designs for the 7th ave greenway include two diverters and the extension Two Plum Park to the other side of the street. This would make it so you could not drive an automobile all the way north to south but you could ride a bike.
- Has the support of the surrounding neighborhood associations.
- A route was originally supposed to be picked by mid august but no decision has been made and no updated time frame has been made.
- Kiel and Kate's new daughter is going to be named Lulu. Her due date is December 18th.

Who is using NE 7th Ave?

We strongly support the proposed Greenway on NE 7th from Lloyd Ave to Sumner St. We believe that a Greenway on 7th will dramatically improve Portland's bikeway network, improve the safety of people using and crossing the street, and restore 7th to its original function as a local neighborhood street.

For many years neighbors on 7th Avenue have seen a lot of unsafe traffic behaviors mainly from frustrated commuters avoiding MLK. They are cutting through the neighborhood using 7th Avenue as their route driving faster than posted speed limits, refusing to stop for pedestrians and rarely yielding to cyclists. Currently 7th Avenue is a de-facto bike route. In addition, hundreds of pedestrians use this street including children that attend Albina Head Start, King and Irvington Schools and residents walking to take public transportation.

Keeping all people safe that are using 7th should be a priority.

A Great Bikeway

A Greenway on 7th would be a superior bikeway for one simple reason: it doesn't require a map to understand. All the way from I-84 to Sumner, it's a straight and direct route with an easy and even grade. This is exactly the kind of bikeway we need in Portland to make bicycling accessible to more of our neighbors: easy to use, easy to find, and easy to follow. And every person that uses a bike is one person who's not using a car, thereby improving mobility for everyone in the city.

These are the additional reasons why we believe that NE 7th is a superior choice over NE 9th:

- 1) Already heavily used by bicyclists and pedestrians to access neighborhood destinations. Used by children attending Irvington School, King School, Albina Head Start, and people with disabilities. (DaVita, Norco Medical, Numotion)
- 2) Through traffic should be using MLK Blvd; vulnerable road users and adjacent residents should not be overwhelmed by traffic avoiding MLK
- 3) Connects directly to existing bike infrastructure in the Lloyd and across Broadway/Weidler
- 4) Most mellow grade, which is key for those unexperienced riders, people with disabilities and elderly pedestrians
- 5) Existing traffic signals at Fremont, Prescott, and Alberta
- 7) Only a few blocks away from the bike/ped-unfriendly MLK commercial corridor; connects to King School and King Farmer's Market
- 8) There are existing traffic calming measures in place on stretches of 7th (improvement is necessary but better than starting from a blank slate)
- 9) Future bike/ped bridge over I-84 likely to touch down at 7th on N side of freeway UPDATE: PBOT decided that the final alignment for this bridge will be from NE 7th on the north side of I-84 to 7th avenue on the south side
- 10) Every cyclist we asked riding on 7th told us that they would not ride on 9th even if a greenway went on it.

12) More direct route, keeps bike traffic out of Irving Park

13) In the Community Outreach event that we held on March 6, 2016, we found out that support from residents on the street was strong. We have collected 72 signatures from residents from NE 7th Ave. Including King, Eliot and Irvington neighborhoods.

14) The area on 9th between Weidler/ Broadway is challenging and Lloyd District stakeholders objected strongly to have a greenway there.

15) 9th Ave would require running a path entering by the playground and by the baseball and soccer fields where young children play, dogs play free and stray soccer and baseballs fly. Or a path forced to skirt around the park necessitating 4 tight right angle turns for the bike commuter plus the installation of a traffic light on NE 9th and Freemont.

16) PBOT provided a cost estimate and a greenway on 7th could cost \$1 million VS a greenway on 9th could cost \$2 million.

The only way the City can reach its ambitious goals laid out in the Bike Plan for 2030 is supporting projects like this.

Our city must work quickly to achieve our goal of 60% of trips made on foot, by bike, or by transit in 2030. Projects like this are necessary to create the safe conditions necessary to get young, elderly, family, and "interested but concerned" folks traversing the city on foot and by bike.

Please keep the greenway on NE 7th and protect the hundreds of pedestrians and riders that use NE 7th on a daily basis!

A greenway on NE 7th Ave is enthusiastically supported by the following organizations:

- Bicycle Transportation Alliance/The Street Trust

- Bike Loud PDX

- Weidler-Broadway Alliance

- King Neighborhood Association

- Eliot Neighborhood Association

- Irvington Community Association

Recipient: Mayor Ted Wheeler, City Council of Portland

Letter: Greetings,

Please support NE 7th Greenway @ PDX

NORTHEAST COALITION
OF NEIGHBORHOODS

July 17, 2018

Ted Wheeler, Mayor
Dan Saltzman, Commissioner
City Council

CC: Leah Treat, Chris Warner Nick Falbo,

Re: NECN Support for 7th Alignment of Lloyd to Woodlawn Neighborhood Greenway

Dear Mayor Wheeler, Commissioner Saltzman, and Commissioners,

Thank you for providing an additional opportunity to discuss the Lloyd to Woodlawn Neighborhood Greenway (L2W) project being led by the Portland Bureau of Transportation (PBOT).

As our March letter stated, the Northeast Coalition of Neighborhoods (NECN) strongly supports the L2W's objectives to provide safe walking and biking and walking routes for our students, neighbors, employees, and visitors. Now as PBOT seeks our input on L2W's alignment, we believe that ***creating a greenway on NE 7th will fully meet NECN's priorities to improve transportation safety and access.***

The 7th alignment of L2W would improve safety for our students and neighbors by ***improving 8 crossings on Safe Routes to School priority routes.*** This would directly benefit students who attend Irvington, MLK Jr, Sabin, & Vernon schools.

Creating a greenway on 7th would also expand access by ***aligning with Sullivan's Crossing, the walking and biking bridge over I-84,*** which is funded and currently under design by PBOT. This would provide residents of Eliot, Irvington, King, Lloyd, and Woodlawn neighborhoods direct access to the Central Eastside, Southeast, and the future Green Loop.

By improving transportation safety and access, 7th alignment of the Lloyd to Woodlawn Neighborhood Greenway will support the City's goal of ensuring that by 2030, ***80% of residents can easily walk and bicycle*** to meet their basic non-work needs, as adopted by City Council in the ***2015 Climate Action Plan.*** For these reasons we request that Council provide full support and funding required to build the greenway.

Regards,

Mariah Dula, Chair
Northeast Coalition of Neighborhoods

To: City Bureau of Portland
Attn: Nick Falbo

Re: Lloyd to Woodlawn Neighborhood Greenway
June 29, 2018

Dear Nick,

I am writing to express the Lloyd Community Association's support of the proposed Lloyd to Woodlawn Neighborhood Greenway project. On June 21st, you presented the Initial Route Analysis to our Board of Directors. Based on that presentation we offer the following comments:

- We support the project's goals of expanding the City's low-stress walking and bicycling network.
- We strongly favor the route along NE 7th Ave in the Lloyd as proposed in the Initial Route Analysis. This will align directly with the future NE 7th Avenue Bridge, and current street design and usage on NE 7th in the Lloyd.
- We request modifications to the existing conditions along the East side of NE 7th between NE Wasco St and NE Clackamas St. This area has a separated bike lane with street parking and presents a dangerous condition due to lack of signage to clarify how it should be used. Cars traveling Northbound on NE 7th often queue up behind the parked cars, not understanding that they are parked. Also, vehicles exiting the parking lot to the East have very limited sight lines as they attempt to enter 7th and present a danger to bicyclists and vehicles. We request signage or other measures be added to this area to enhance safety and clarify how it should be used.
- We request careful study of traffic patterns and potential mitigation solutions at NE 7th at NE Broadway and NE Weidler. Many daytime workers in the Lloyd commute through this intersection in a Northbound direction and take a left to follow NE Broadway to I-5. NE 7th frequently backs up here as the signal only allows a few vehicles through during peak periods and an unsafe condition is created. We recommend reconfiguring signal timing to allow Northbound traffic on 7th Avenue to flush out from NE Halsey to NE Broadway.

Thank you for your consideration,
The Lloyd Community Association

Comments on the future Lloyd-to-Woodlawn Greenway

Commissioner Saltzman,

I am writing to you on behalf of the Eliot Neighborhood Association (ENA), which has received numerous complaints from neighbors about the dangerous conditions of NE 7th Avenue, between NE Broadway and NE Fremont. The ENA is particularly concerned about the continued deterioration of the road from a traffic standpoint - it is harder to bicycle on the street, and to cross 7th on any mode of travel. NE 7th has become a major cut-through route in recent years and we are excited for the Lloyd to Woodlawn project to put this traffic back where it belongs: on NE Martin Luther King Jr, Blvd (MLK).

We would like to re-iterate our preference of NE 7th Avenue over NE 9th. It is more direct, flatter, has better pavement, already used, and cheaper. 7th also lines up with the future Sullivan's Crossing bridge, and is closer to businesses on MLK. We have gone into more details of this in the past. We additionally love the idea of getting a win-win of traffic calming on this dangerous street as part of the project.

Currently, 7th Avenue is a well-used de facto bike route. Unfortunately, many non-local drivers utilize the street as a way to avoid Martin Luther King Boulevard. These drivers often drive dangerously, ignoring the speed limit, driving too fast around the intersection planters (sometimes toppling their cars over), driving too close to cyclists, failing to stop for pedestrians crossing the street, and running stop signs. In addition to acting as a major bikeway, 7th Avenue is a crossing point for many children who attend Irvington School. Because of an interruption of sight-lines, speeding is dangerous on 7th.

Because 7th Avenue has become increasingly dangerous, we believe that it is paramount that PBOT take steps to ensure that 7th Avenue once again becomes a safe neighborhood street. To that end, we would like for the city to recognize that 7th Avenue is currently a de facto bike boulevard and immediately turn 7th Avenue into a bike greenway. This would make the street safer for cyclists and pedestrians.

We are very supportive of the proposed diverters along 7th through the Eliot Neighborhood. We do, however have some major concerns about east-west cut-through traffic, particularly on streets with traffic signals which also happen to be our major east-west neighborhood greenways. Residents have hand-counted over 100 cars per hour on certain segments of NE

Morris street, well above what is advised for a greenway. A diverter or major traffic calming is probably required to resolve this. NE Tillamook has similar issues but hopefully the will be solved with the NE Tillamook upgrade project. We have also heard that NE Rodney has higher travel speeds than desired and higher traffic volumes than desired.

Thank you for your attention to these matters and helping make our neighborhood safer and more comfortable for children and easier for everyone to cross our streets. I look forward to hearing from you regarding these proposed improvements.

Regards,

A handwritten signature in cursive script, appearing to read "Allan Rudwick".

VIA EMAIL

Commissioner Dan Saltzman
City of Portland
1221 SW Fourth Avenue, Suite 230
Portland, OR 97204
dan@portlandoregon.gov

Director Leah Treat
Portland Bureau of Transportation
1120 SW Fifth Avenue, Suite 800
Portland, OR 97204
Leah.Treat@portlandoregon.gov

Dear Commissioner Saltzman and Director Treat:

The Sabin Community Association (“SCA”) strongly supports the Lloyd to Woodlawn Neighborhood Greenway and recommends the 7th Avenue alignment. The SCA encouraged neighborhood residents to review the proposal and provide feedback to both SCA and PBOT. In addition, the SCA Board has discussed the alignment in detail with PBOT Senior Planner Nick Falbo. The SCA enthusiastically supports better pedestrian and bicycle connectivity, and we believe that the 7th Avenue alignment may create a direct, connected, world-class bicycling facility with increased green space and gathering space for families.

With that support, we also note that Sabin residents, the SCA’s Land Use & Transportation Committee, and the SCA Board all expressed concerns about the potential spillover effects on other north-south streets in the Sabin neighborhood. Dramatically reducing vehicle traffic on 7th Avenue may cause more cars to choose 15th Avenue and other neighborhood streets, thereby creating or exacerbating congestion and crossing problems on those streets. In supporting the 7th Avenue alignment, we urge the City to also monitor and mitigate these impacts on Sabin’s streets as appropriate, including by potentially adjusting signal length and timing on 15th Avenue and making safety improvements to crossings.

Portlanders move around the City in diverse ways. The SCA supports investing in bicycle infrastructure as an increasingly important component of the community’s transportation options. Regardless of which alignment is ultimately selected, we hope that the Lloyd to Woodlawn Greenway will facilitate safe and enjoyable bicycle transportation in NE Portland.

Dan Saltzman & Leah Treat

Portland Bicycle Advisory Committee

Working to make bicycling a part of daily life in Portland

August 14, 2018

Nick Falbo, Project Manager
City of Portland Bureau of Transportation
1120 SW Fifth Ave, Suite 800,
Portland, OR 97204

Dear Nick Falbo,

As members of Portland's Bicycle Advisory Committee, we are writing to express our strong support for the 7th Avenue alignment of the Lloyd to Woodlawn Neighborhood Greenway. We appreciate the City's efforts to provide two viable options and gather valuable feedback through public outreach. Cyclists of all ages already use the 7th Avenue alignment to move through this section of the City and we are excited by the potential that this project has to improve 7th Avenue and bring much-needed traffic calming to the area. Encouraging bicyclists to adopt this popular alignment rather than forcing the 9th Avenue route will benefit the City through higher adoption and lower costs, local businesses that are more accessible, nearby schools that will see fewer cars dropping off and picking up children, and the environment by making bicycling a viable alternative to using automobiles.

The 7th Avenue Greenway alignment outperforms 9th Avenue in every measure that correlates to successful greenway design: safety, simplicity, intuitiveness, and cost efficiency. We encourage PBOT to complete the full project along 7th and include all design elements proposed to improve the experience, not only for cyclists, but for the neighborhoods that the route passes through as well. A preference for direct routes has been expressed repeatedly by people traveling by bike, and 7th Ave would provide that direct option while linking to the upcoming Sullivan's Crossing bridge at I-84. The connection of these two projects would establish a critical north-south link in the bikeway network, while providing a low-stress option for users on foot or bicycle. Additionally, the 7th Ave route is flatter, avoids expensive pavement repairs, and would be cheaper to implement.

Safe access to schools on foot and by bike is prioritized in the City of Portland Comprehensive Plan update Sec 8.121. Students from both Irvington and King Elementary rely on 7th Avenue to travel to and from school. The traffic calming provided by the 7th Ave option will improve the safety at street crossings and encourage more students to walk and bike to school. Expanding Two Plum Park would create an amazing experience for children as it creates more easily accessible public space for the community with the development of this new greenway.

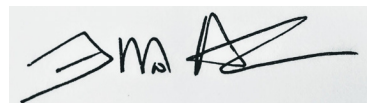

While we strongly support the 7th Avenue alignment, we must stress that if done without enough diverters or other proposed traffic calming measures, the project will fail to realize its potential and may end up more being dangerous than the current configuration for all road users. We ask PBOT to ensure that the final design takes into account that traffic volumes and speeds on the intersecting greenways has increased to a level that is detrimental to the neighborhoods. We also recommend removing the jog from 7th to 9th Avenue along Broadway, as this creates an unnecessary weak link, and the 9th Avenue option in this section should be removed as it would introduce multiple safety concerns by requiring travel on a busy, multi-lane street.

Thank you for the opportunity to weigh in and fulfill our charge to advise the City on matters related to bicycling. As Portland looks to realize its Vision Zero and climate action goals, the need for safe, dedicated infrastructure that makes our city a more accessible place to ride, walk, and live while providing transportation options is paramount. We look forward to seeing the project implemented in a timely manner, and respectfully submit these comments for consideration.

Respectfully submitted on behalf of Portland's Bicycle Advisory Committee,

Rithy Khut, Chair
Bicycle Advisory Committee

Elliot Akwai-Scott, Vice-Chair
Bicycle Advisory Committee

Subject: testimony about 7th ave greenway for city council

Hello, my name is Kiel Johnson and I am interested in speaking before the council about PBOT's 7th ave greenway project. My neighbors and I have a petition with 900 signatures speaking in favor of the project and I would like to present this petition to the council. I have never done anything like this before, is there an open forum time I could come speak?

thanks,

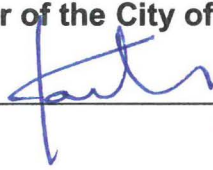

-Kiel

Request of Kiel Johnson to address Council regarding a petition in favor of
