

RESOLUTION No. 37405

Authorize the Office for Community Technology and the Portland Bureau of Transportation to enter into an agreement with AT&T related to the permitting of small cellular technology in the public right of way to enable 5G deployment (Resolution)

WHEREAS, the City Council unanimously adopted the Digital Equity Action Plan (DEAP) to guide how the City fosters technology partnerships in the community; and

WHEREAS, through DEAP, the City seeks to bridge the digital divide that exists for disadvantaged members of our communities by providing access to the internet and digital literacy training; and

WHEREAS, the City's technology partnerships have been developed in accordance with these core principles; and

WHEREAS, the City, through the Bureau of Transportation which manages the right of way, permits public and private utilities to deliver essential services – such as water, electricity and internet access – to Portlanders using the right of way; and

WHEREAS, utilities that profit from using the public right of way should offer fair value in return; and

WHEREAS, the compensation determined by the City will ensure that private wireless carriers cover the cost of 5G deployment without relying on taxpayer support; and

WHEREAS, the City uses the public right of way to improve and protect the public health, safety and welfare of Portlanders and increase first responder efficiency; and

WHEREAS, the City's partnership with AT&T for community benefits is outlined in the attached Exhibit A.

NOW, THEREFORE, BE IT RESOLVED that the City Council directs the Office for Community Technology and the Bureau of Transportation to finalize agreements with AT&T that are substantially similar to the terms in Exhibit A.

BE IT FURTHER RESOLVED that the Council directs the City Attorney's Office to ensure that these agreements comply with applicable local, state and federal regulations.

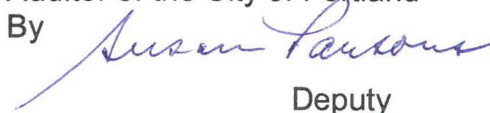

BE IT FURTHER RESOLVED that this action allows the Mayor to enter into this partnership on behalf of the City once the finalized documents are distributed to City Council.

Adopted by the Council: DEC 19 2018

Mayor Ted Wheeler
