

IMPACT STATEMENT

Legislation title: Declare the City of Portland's opposition to the offshore drilling of oil and gas and exploration activities off the Oregon Coast (Resolution)

Contact name: Yesenia L. Carrillo

Contact phone: 503-823-1120

Presenter name: Yesenia L. Carrillo

Purpose of proposed legislation and background information:

To signal the City's commitment to and support of Coastal communities, and the protection of marine life, Oregon beaches, and the use of Oregon's natural resources.

Financial and budgetary impacts:

There are no direct financial or budgetary impacts to the City of Portland.

Coastal tourism and recreation and the commercial and recreational fishing industries in Oregon support more than 27,500 jobs and generate approximately \$2 billion in gross domestic product. Offshore oil and gas drilling and exploration places coastal communities at economic and ecological risk from oil spills, chronic leaks, and pollution; threatening the livelihoods of commercial and recreational fishers and small businesses that rely on tourism and clean and healthy ocean waters and beaches.

Community impacts and community involvement:

On August 22, 2018 constituent Briana Bard communicated to Portland City Council a request for the council's support and passage of a resolution to oppose the development of offshore oil and gas in Oregon. The League of Oregon Cities Board was consulted on the issue. This resolution was informed by the knowledge and insights of Councilor David Allen from Newport, Oregon, and through engaging with local leadership from the Surfrider and Oceana organizations. NW Natural reviewed the draft resolution and states, "upon reviewing the resolution, we have no conflicts with the wording. We look forward to watching its progress."

100% Renewable Goal:

The purpose of this resolution relates to and supports our city's commitment to cutting carbon emissions, and to the city's Climate Action Plan (CAP) strategy to put Portland and Multnomah County on a path to achieve a 40 percent reduction in carbon emissions by 2030 and an 80 percent reduction by 2050.

Subject: August 22nd Testimony Request

Hello,

I'd like to request a communication for the August 22nd city council meeting. During this time, I would like to request the council's support in passing a resolution to oppose the development of offshore oil and gas in Oregon.

Thank you for the consideration,
Briana Bard
