

Data from 2015 through 2017 is from the Oregon Department of Transportation. Data from 2018 through today is from the Portland Police Bureau, and is considered preliminary until it is processed by ODOT. Injury data is not yet available for years prior to 2018. We expect to receive 2018 data from ODOT around June of 2020. You can also pull information from our crash map at <http://map.visionzeroportland.com>.

You may see different figures for year-to-date 2019 deaths from the Portland Police Bureau. PPB is reporting two deaths that are excluded by state and national reporting criteria (one confirmed suicide, one death in a parking lot).

- The table shows total annual traffic deaths by mode since 2015 (only through 10/1 for the current year).
- The graph shows year-to-date figures since 2015 through 10/1.

Total annual traffic deaths by mode	2015	2016	2017	2018	2019 (through 10/1)
Driving	19	20	18	7	18
Motorcycling	5	6	7	9	7
Pedestrian	11	13	20	16	13
Biking	2	5	2	2	2
Transit	0	0	0	0	0
Total deaths	37	44	47	34	40

Portland crash deaths year-to-date by travel option, 2015-2019
