

Affordable Housing: Faith Forum & Resource Fair

Cosponsored by Ecumenical Ministries of Oregon and the City of Portland, we extend an invitation to all faith-based organizations in the City of Portland with interest in developing affordable housing on their property.

The evening will include a panel discussion and a Q & A session with various experts in affordable housing—lenders, developers and city officials. A resource fair will follow the panel discussion and will allow an opportunity for networking and more information around this topic. Light snacks will be provided.

You are welcome to share this invitation with other faith-based organizations in Portland that may also be interested.
