* Please note: One private-market development project has yet to submit their intake form (which identifies the total number of units required based on the option selected) which accounts for a projected minimum of 3 IH Units not accounted for in the total. PHB staff cannot confirm totals of units by type or affordability levels for any projects that have not submitted an Intake Form. These calculations do not take into account minimum if using reconfiguration, which would be lower in total but increase the number of family type units.
