Subject: Alamo proposal

To the city council,

I am concerned about the proposed 23 story development on the South Waterfront and am writing to express my strong opinion that the council decline the proposal. Most of our patients already have some difficulty navigating the single entry and exit point for the South Waterfront area around OHSU. We have patients who travel from all across the state, as well as Washington, Idaho, Montana and California, but also many seniors who drive or take public transportation. OHSU has provided clear signage and parking options, but two more large high-rise apartment buildings from a Texas company who doesn't understand Portland's unique vision is not needed or welcome at this time. Please consider voting "No" on this proposal.
