

**Exhibit A – List for Quarterly Inventory Reporting**

For the purpose of this Resolution, PPB is required to inventory and report to Council quarterly, with weekly reports during high-frequency use periods, all tools PPB has used or reasonably could use for crowd control purposes as authorized under PPB Directive 0635.10, including but not limited to:

- Chemical Irritants/Riot Control Agents
  - Specialty less lethal impact munitions with irritant
  - Launchable pyrotechnic riot control agents
  - Hand toss pyrotechnic riot control agents
  - Hand toss vapor riot control agents
  
- Specialty Less Lethal Impact Munitions (non-patrol)
  - FN 303
  - 40mm
  
- Distraction Devices and area impact munitions
  - Rubber ball distraction devices
  - Non-bursting distraction devices
  
- Smoke/Obscurants

For purposes of this Resolution, PPB is not required to inventory and report to Council on items from this list that have been earmarked for disposal or destruction.

## Exhibit B – Equipment List for Quarterly Purchase Authorization

For the purpose of this Resolution, military-style equipment is defined based on the equipment lists established by Federal Executive Order 13688 of January 16, 2015 (Section(3)(i)) and the pursuant recommendations of the Law Enforcement Equipment Working Group (May 2015). Prior authorization from City Council will be required for purchases of any equipment on those lists, excluding equipment that is standard-issue to all Portland Police Bureau divisions/personnel or equipment used by the Special Emergency Response Team (SERT), as follows:

### Prohibited Equipment List

- **Tracked Armored Vehicles:** Vehicles that provide ballistic protection to their occupants and utilized a tracked system instead of wheels for forward motion.
- **Weaponized Aircraft, Vessels, and Vehicles of Any Kind:** These items will be prohibited from purchase or transfer with weapons installed.
- **Firearms of .50-Caliber or Higher**
- **Ammunition of .50-Caliber or Higher**
- **Grenade Launchers:** Firearm or firearm accessory designed to launch small explosive projectiles.
- **Bayonets:** Large knives designed to be attached to the muzzle of a rifle/shotgun/long gun for the purpose of hand-to-hand combat.
- **Camouflage Uniforms:** Does not include woodland or desert patterns or solid color uniforms.

### Controlled Equipment List

- **Manned Aircraft, Fixed Wing:** Powered aircraft with a crew aboard, such as airplanes, that use a fixed wing for lift.
- **Manned Aircraft, Rotary Wing:** Powered aircraft with a crew aboard, such as helicopters, that use a rotary wing for lift.
- **Unmanned Aerial Vehicles:** A remotely piloted, powered aircraft without a crew aboard.
- **Armored Vehicles, Wheeled:** Any wheeled vehicle either purpose-built or modified to provide ballistic protection to its occupants, such as a Mine Resistant Ambush Protected (MRAP) vehicle or an Armored Personnel Carrier. These vehicles are sometimes used by law enforcement personnel involved in dangerous operating conditions, including active shooter or similar high-threat situations. These vehicles often have weapon-firing ports.
- **Command and Control Vehicles:** Any wheeled vehicle either purpose-built or modified to facilitate the operational control and direction of public safety units responding to an incident. Command and Control vehicles provide a variety of capabilities to the incident Commander, including, but not limited to, the provision for enhanced communications and other situational awareness capabilities.
- **Specialized Firearms and Ammunition Under .50-Caliber (excludes firearms and ammunition for service-issued weapons):** Weapons and corresponding ammunition for specialized operations or assignment. This excludes service-issued handguns, rifles, or shotguns that are issued or approved by the agency to be used during the course of regularly assigned duties.
  - *SERT-specific equipment in this category requires prior authorization from the Commissioner-in-Charge.*

- **Explosives and Pyrotechnics:** Includes “flash bangs” as well as explosive breaching tools often used by special operations units.
  - *SERT-specific equipment in this category requires prior authorization from the Commissioner-in-Charge.*
- **Breaching Apparatus (e.g. battering ram or similar entry device):** Tools designed to provide law enforcement rapid entry into a building or through a secured doorway. These tools may be mechanical in nature (a battering ram), ballistic (slugs), or explosive.
  - *Requires prior authorization from the Commissioner-in-Charge.*
- **Riot Batons (excluding service-issued telescopic or fixed-length straight batons):** Non-expandable baton of greater length (generally in excess of 24 inches) than service-issued types and are intended to protect its wielder during melees by providing distance from assailants.
- **Riot Shields:** Shields intended to protect wielders from their head to their knees in melees. Most are designed for the protection of the user from projectiles including rocks, bricks, and liquids. Some afford limited ballistic protection as well. Riot shields may also be used as an offensive weapon to push opponents.
