City Council Hearing on: Willamette River Greenway Inventory

Why am I receiving this notice?

You are receiving this notice because you are a property owner within the Willamette River Greenway boundary, responded in writing to the matter, testified at a previous related hearing, or have requested notice of this hearing.

What is this project about?

The updated *Willamette River Greenway Inventory* describes existing conditions within the Willamette River Greenway boundary, including data about land uses, natural resources and historic resources. The inventory **does not** propose any changes to rules or regulations. The data presented in the inventory is strictly based on *Oregon Statewide Land Use Planning Goal 15, Willamette River* and updates the inventory last revised in 2014. The recommended draft reflects City Council adopted changes to the Willamette River area that were made in the *2035 Comprehensive Plan (2016)* and the *Central City 2035 Plan (2018)*. The information is from the draft presented to and voted on by the Planning and Sustainability Commission at a public hearing on March 26, 2019. It is necessary to refresh information about the Willamette River area based on changes from recently adopted City plans. Along with other data, the inventory will inform river planning projects.

How can I review this proposal?
