

Write In Teresa Raiford for Portland Mayor

NORMALIZE CHANGING YOUR OPINION WHEN PRESENTED WITH NEW INFORMATION>>>

"After working for the Raiford campaign during the primaries, one thing became clear- Portland talks the talk but they don't show up. We knew it was going to be an uphill battle for 8 months. We knew that Portland is a city full of white supremacists hiding behind their BLM signs on their front lawns.

Y'all didn't show up during the primaries, but you have one last chance to make a real change in leadership in Portland. After field organizing for the Raiford campaign, I am so excited to see so many folks who were not with us in May.

We can elect Teresa Raiford for Mayor. We can write in Teresa Raiford for Mayor.

I am so excited about the community team we have created to bring city hall to the people. Teresa isn't the type of leader that takes the megaphone for herself, she hands it off to people in her community. She takes care of us. She inspires us. She is with US. When we elect her, we WILL be electing US.

If you want to get more involved, PLEASE DM me. If you dropped the ball and didn't reach out to me during the primaries, DM ME. We have so many incredible projects. This is a community based campaign. This is nothing like any campaign you've seen. This is a write in FOR the people BY the people. I'll be posting more often but check out our instagram @writeinteressaraiford to keep updated!"

writeinteressaraiford We're ecstatic about the outpouring of folks who have shown a desire to donate to our volunteer-led campaign! Our Venmo is WriteinTeresaRaiford. First, though, we want to be completely transparent. As you may know, US campaign finance laws empower already privileged voices and silence those who are marginalized; Oregon's campaign finance laws are particularly egregious. We have no interest in playing the bureaucratic games of our capitalist oppressors. Instead, we will fulfill our commitment to being a 100% grassroots campaign, by turning down the so-called "open and accountable elections" funding. We believe this money, taken at the taxpayers' expense, should be spent helping struggling communities, not on political theater. We also refuse to hide behind ORESTAR, the inaccessible Oregon campaign finance website. Instead, we will be posting our own statements and records weekly to Instagram. Any finances donated will be used to feed volunteers, support BI-PoC leaders and artists, and continue Teresa Raiford's mission of actualizing systemic change. If you have any questions about how we will be honoring our commitment to transparency and uplifting marginalized voices, please contact writeinteressaraiford@protonmail.com

@Teresa_Raiford is also still running a write-in campaign. What do you think about Wheeler's continued campaign?

stickerninja @writeinteressaraiford asked us to believe in her and we are out here doing just that. Teresa Raiford is running a write in campaign for Portland major and needs support for this grassroots movement. Now more than ever we should be believing in and amplifying Black womxn. This is a participatory grassroots campaign, so if you want to get engaged with the campaign, do it!!

We have these Teresa stickers for anyone who wants a stack to hand out to family, friends, neighbors, or strangers! Shoot us an email (in bio!!) to coordinate grabbing some 🌟 We are also proudly flying this

It also doesn't look like Iannarone will have a clear shot at Wheeler. On Tuesday, Gladu's group, Next Up, announced that it had [endorsed the write-in campaign](#) to elect Teresa Raiford as mayor. Raiford, who started Don't Shoot Portland to more civilian oversight of police, finished third in the primary. Next Up says it mobilized volunteers to send out tens of thousands of texts and phone calls aiding candidates in the primary and plans to do it again in advance of the election.
