

River Plan / South Reach

TRIBAL AND URBAN NATIVE COMMUNITY ENGAGEMENT

THE RIVER PLAN

WHAT ARE THE GOALS...

Continue to strengthen the relationship between tribal governments and the City of Portland.

- Update the 2035 Comprehensive Plan to reference tribal nations as governments and to use consistent terminology.

Recognize the cultural and historical importance of the South Reach for tribal nations and the urban native community.

- Coordinate with tribal nations and the urban native community to:
 - ◇ Generate ideas, seek funds and implement programs and projects that promote culture and history and educate the public.
 - ◇ Investigate developing a citywide tribal cultural resources first foods harvesting program where tribes historically harvested foods and other resources.
 - ◇ Enhance natural areas to increase viability of culturally important fish, wildlife and native plants.
 - ◇ Determine barriers to, and plan for desired culturally-specific activities and programming in South Reach parks and natural areas.
