

O R D I N A N C E N O. **149403**

An Ordinance amending Title 21, Water Code of the City of Portland by adding a paragraph to Section 21.24.020 inadvertently omitted in error, making the effective date April 28, 1980 and declaring an emergency.

The City of Portland ordains:

Section 1. The Council finds:

1. That in amending Title 21, Water Code by Ordinance No. 149319 the initial paragraph of Section 21.24.020 was inadvertently omitted in error.
2. The effective date of this Ordinance should be April 28, 1980 so that the revisions should all be effective on the same date.

NOW THEREFORE, The Council directs:

- a. Chapter 21.24, Rules and Regulations of Title 21, of the Code of the City of Portland hereby is amended to read as follows:

Section 21.24.020 Fire hydrants. It is unlawful for any person to operate, alter, change, remove, disconnect, connect with, or interfere in any manner with any fire hydrant owned or used by the city without first obtaining written permission from the Bureau of Water Works. The provisions of this section shall not apply to the Bureau of Fire of the city.

Permitted Use. Public fire hydrants are available for use of the Fire Department in the suppression of fire within the city. No other use of public hydrants shall be allowed except as provided in this Section. The Bureau may permit short term use of specified hydrants for activities such as tree spraying, street cleaning, ditch settling, building demolition and related uses at the discretion of the manager, however, in each instance, a permit is required. A permit will be issued by the Bureau for a period not to exceed one year. Upon application the permittee will present a Chapman type (slow closing) gate valve to the Bureau to be tagged with a valid permit listing applicant's name, expiration date and authorized locations. Rates and charges for usage will be specified in the Annual Water Rate Schedule. Backflow protection will be required on all potential hazards to the public water supply as determined by the manager.

Installation and Maintenance. All fire hydrants connected to the Bureau's water system within the public right of way are the responsibility of the Bureau for installation and maintenance, except as referred to under Section 21.08.030 while any hydrant connected to the system outside the city will be at the petitioner's expense. The petitioner will be required to pay all expenses for additional hydrant installations to meet requirements of the Fire Bureau and in all instances the chief engineer will have final review. The Bureau may elect to allow a contractor to install to Bureau standards, fire hydrants as part of his subdivision under Section 21.08.030. The developer will install these hydrants at his expense and turn over to the Bureau at such time as the main and appurtenances are accepted by the Bureau to become part of the city system.

ORDINANCE No.

Section 2. The Council declares that an emergency exists because: Ordinance No. 149319, amending Title 21, Water Code was passed by the Council on March 27, 1980 to be effective April 28, 1980 and all revisions should become effective on the same date; therefore this Ordinance shall be in force and effect on that date.

ORDINANCE NO. 149403

JUNE

Ordinance 149403 amends Ordinance 149319, which amended Title 21, Water Code of the City of Portland, Oregon, to add Section 21.02.010, which provides for the establishment of a water utility district within the City of Portland, Oregon.
