# Inclusionary Housing Options

- Buildings with 20+ new residential units are subject
- 5 options to choose from
- Inclusion rate varies by location (for on-site options)

# Provide Affordable Units On-Site 80% MFI

In buildings with 20 or more units, 15% of the units must be affordable at **80% MFI**, except within the Central City and Gateway Plan Districts, where 20% of the units must be affordable.

#### 60% MFI

Applicants can elect to make 10% of units affordable at **60% MFI** in buildings within the Central City and Gateway Plan Districts, or 8% of units for buildings in all other areas.

#### Reconfiguration

Within Options 1 and 2, applicants can provide an alternative mix of affordable units based on the total number of bedrooms. Redistributing bedrooms into affordable units of two bedrooms or more results in a building with a smaller overall number of affordable units that are greater in size.

# Affordable Units Off-Site Build Off-Site

Applicants can elect to build affordable units off-site in another new development (receiving building), separate from the multifamily development that is subject to the program requirements (sending building).

### **Designate Existing Units**

Applicants can elect to designate affordable units in an existing building (receiving building), separate from the multifamily development subject to the program requirements (sending building).

### Fee Out of Requirement Fee-in-Lieu

Applicants may pay a fee-in-lieu of providing affordable units. PHB staff calculate the fee amount due by multiplying the residential and residential related gross square feet of the new development by the Fee-in-Lieu Factor.
