Subject: Dee White Testimony on Agenda 140 and 152 Buying another house on Carpenter Lane
Date: Wednesday, March 10, 2021 8:52:46 AM

My name is Dee White. I am against the purchase of this house(s) and property on Carpenter Lane.

152 Authorize the purchase of 2.00 acres of real property at 35227 SE Carpenter Lane in the amount of \$875,000 to be used for the Bull Run Filtration Project (Second Reading Agenda 140)

The Portland Water Bureau, a rogue agency vital for the nourishment of the city's coffers, continues to wreck havoc on this small, rural community in East Multnomah County. You guys are literally ruining the lives of the good people in this community by your continual plundering, drilling, tramping all over everywhere (at times without permission), and causing so much stress all over.

Portland Water Bureau's INTENT is to WIPE OUT the communities of Pleasant Home and Cottrell. These are rural communities. The headwaters of Johnson Creek are literally a stone's throw away and here you have a member of the Johnson Creek Watershed Commission sitting on your Bull Run Treatment ADVISORY committee – super bad optics, super questionable conflicts.

This absurd scheme (which all of you are accountable for due to our stupid form of government) to treat for a non-existent infectious pathogen while you kick YOUR UNSAFE and shocking HIGH LEAD LEVELS In OUR drinking water TO THE CURB is pure evil; a money grab; a charade.

PLEASE, JUST STOP NOW. None of you are helping anyone outside of local government officials, managers and multi-national crony contractors.
