

ORDINANCE NO.

149926

An Ordinance authorizing the Purchasing Agent to negotiate a contract with ZIA Associates for an annual supply of solid-state ballasts for the Street Lighting Division, authorizing the drawing and delivery of warrants and declaring an emergency.

The City of Portland ordains:

Section 1. The Council finds:

1. Funding for the Arterial Conversion Project (Phase I) has been appropriated for the Street Lighting Division in both the 1979-80 and 1980-81 budgets, with additional funding from the Oregon Department of Transportation per ordinance No. 149816.
2. On April 16, 1980 the Purchasing Manager published a call for bids for annual supply of ballasts with no respondents.
3. The arterial conversion project is scheduled to be started within the next two (2) months so it will be near completion in the winter months when energy quantities are short and at a premium.
4. For every month the conversion project is delayed it will cost the City approximately \$25,000 for energy.
5. ZIA Associates have solid-state ballasts available which will meet City performance specifications published with the call for bids and is willing to negotiate a unit price contract.

NOW, THEREFORE, the Council directs:

- a. The Purchasing Agent is authorized to negotiate a contract with ZIA Associates, 1830 N 55th Street, Boulder, CO 80301, subject to approval by both the City Attorney and the Street Lighting Division, for an annual supply of solid-state ballasts.
- b. The Auditor and Commissioner of Public Works are authorized to sign the contract with ZIA Associates, which will include terms and unit prices.
- c. The Mayor and Auditor are authorized to draw and deliver warrants in the negotiated amounts, chargeable to the 1980-81 budget; Street Lighting Fund, Street Lighting Division, 332, 630, when demanded, if presented, and approved by proper authorities.

ORDINANCE No.

Section 2. The Council declares an emergency exists because a delay in the purchase of an annual supply of solid-state ballasts would postpone starting the arterial conversion project, resulting in additional energy costs; therefore, this Ordinance shall be in force and effect, from and after its passage by the Council.
