

ORDINANCE No. 150092

An Ordinance amending Section 17.24.080 Work Done Under Permit by adding a subsection providing for authority by the City Engineer for denial of permits when an applicant is delinquent in payment of fees or payment for city charges for work performed for the applicant by the City or completion of work on any permit issued prior to the time of application and declaring an emergency.

The City of Portland ordains:

Section 1. The Council finds:

1. Section 17.24.080 Work Done Under Permit does not specifically provide provisions for enforcement of permit requirements.
2. That heretofore, the City Engineer has enforced permit requirements under implied powers by denying permits to an applicant who is delinquent in payment of fees or city charges for work performed for the applicant by the city or completion of work on any permit issued prior to the time of application.
3. The implied power of the Engineer for denial of permits should be codified to make clear the delegation of authority.

NOW, THEREFORE, the Council directs:

- a. Section 17.24.080. Work Done Under Permit is hereby amended by adding a new section to be numbered subsection (b) to read as follows:
 - (b) The City Engineer shall have the authority to refuse issuance of permits for work within the streetright of way to any individual, corporation or company until the requirements of permits previously issued are complied with. This authority shall include, but not be limited to, denial of a permit when the applicant is delinquent in payment of fees or city charges for work performed for the applicant by the city or has failed to complete work on any previously issued permit or permits.

Section 2. The Council declares that an emergency exists, in order that the City Engineer be given the expressed authority of the enforcement code provisions provided for Section 1 immediately; therefore, this ordinance shall be in force and effect from and after its passage by the council.

Passed by the Council, **JUL 24 1980**

Comm. Mike Lindberg
