

IMPACT STATEMENT

Legislation title: *Declare the Gateway Green Park “Sliver Parcel” property surplus real property and authorize the Bureau of Parks and Recreation to dispose of the property by transferring it to TriMet for its Redline Max Line project (Ordinance)

Contact name: F. Dennis James, PP&R

Contact phone: 503-823-5120

Presenter name: F. Dennis James, PP&R

Purpose of proposed legislation and background information:

To declare the Gateway Green Park “Sliver Parcel” property surplus real property and authorize the Bureau of Parks and Recreation to dispose of the property by transferring it to TriMet for its Redline Max Line project.

Financial and budgetary impacts:

PP&R will not receive financial consideration for the transfer of the property but will accrue significant benefits from the completion of the Redline Max Line project, including the construction and use of a road which the City would otherwise need to build with a substantial investment.

Community impacts and community involvement:

Community members will experience significantly increased access to this landlocked parcel that currently sits on an island between freeways. The TriMet Redline project will provide new bridge access that will connect the highly utilized Park with multiple transit options.

100% Renewable Goal:

This action does not increase or decrease the City’s renewable or total energy use.
