Subject: Please do the right thing and preserve South Park blocks green space, parks & trees
Date: Friday, June 11, 2021 6:14:51 PM

Mayor Wheeler and Commissioners,
We love the South Park Blocks and have been enjoying them for more than 15 years. We don't want the green space or the trees to be removed or paved to make way for more bike lanes! They are beautiful and perfect just as they are. Please vote no on the SPB Master Plan when it is presented for your review.

As we are all emerging from this horrendous year and a half of the pandemic lock down, what we need more than anything are beautiful, green spaces to gather, sit, reflect and connect with friends and family under those amazing Elm trees! I believe in bike paths too, but can't we find another space to dedicate the bike lanes that doesn't uproot the trees and create more pavement ? Please reconsider voting for the SPB Master plan.

Thank you,
Susan Lindauer and Chris Maloney
