Subject: South Park Blocks, please reject CUTTING/culling of trees.
Date: Friday, June 11, 2021 9:33:31 PM

Elm trees sequester FAR MORE carbon than evergreens.

We are already in a climate catastrophe.

KEEP THE CURRENT TREES.

We need more trees, more carbon sequestration, not less.

Humans are facing a global existential crisis.

Do not make the problem worse by approving the destruction of the current tree canopy and root system in S. Park Blocks.
