

June 11, 2021

Dear City Council members,

As a neighbor of the South Park blocks, I urge you to reject the current version of the South Park Blocks Master Plan. The master plan proposed includes cutting the number of trees, including the majestic elms and replacing them with pavement. The park would then be smaller and less user friendly, in my opinion.

The money involved would be better spent to maintain these majestic trees and upgrade parks all over Portland.

Please vote NO on this proposal.

Sincerely,

Evelyn Lowry
