Testimony to **Portland City Council** on the **Design Overlay Zone Amendments, Recommended Draft**

I would like to see design standards like those recommended by SMILE added to DOZA. I work in the construction/design/remodel industry and have a degree in architecture. Some of what I see happening in all of inner southeast is acceptable, most is purely about maximizing profit/square footage without regard to what is appropriate and will have lasting negative consequences to our neighborhoods. Please help keep our neighborhoods free of rows of giant boxes.
