Testimony to **Portland City Council** on the **Design Overlay Zone Amendments, Recommended Draft**

I would like to strongly recommend that the design standards recommended by SMILE be included and added to DOZA in order that improved building design would be required in Sellwood-Moreland. I have been a resident in this area for 30 years and have witnessed a multitude of 4 and 5 story boxy apartment buildings being build within our community. These buildings, as their currently being constructed, do not fit the character of our neighborhood and tend to undermine our liveability .
