Testimony to **Portland City Council** on the **Design Overlay Zone Amendments, Recommended Draft**

The DOZA design standards are an important guide to building design in the Sellwood and Moreland neighborhoods. Therefore, please make them better by adding the design standards recommended by SMILE. There are two things in particular that are most important to me in this endeavor - a height limit of three stories, and off-street parking for each. This will preserve the livability of Sellwood - the very reason so many of us enjoy living here, and why others want to live here also.
