Testimony to **Portland City Council** on the **Design Overlay Zone Amendments, Recommended Draft**

I'm disappointed that the Centers Main Street Overlay does not include the intersection of N Denver and N Rosa Parks. This is already an active neighborhood district that needs support from the City of Portland to preserve and enhance the walkability of Arbor Lodge. Furthermore, the gaps between Lombard and Killingsworth on Interstate to require the 25% ground floor active use compounds the existing problems of walkability and force people to drive even short distances to reach essential businesses.
