Testimony to **Portland City Council** on the **Design Overlay Zone Amendments, Recommended Draft**

I hate all of the new huge apartments with no parking in N. Portland. The aggressive development plans have made the streets crowded. Combine that with the removal of many parking spaces and continuous street configuration changes by PBOT, and the livability feel has gone to shit. I have completely lost faith that the city planners want to hear any input from residents who live their daily lives in the neighborhood, but you could gain yourself a little bit of positive trust by extending the (m)-overlay to include the intersection of N Portland Blvd (Rosa Parks Way) and N Denver Ave in Arbor Lodge. Thank you for your time.
