Testimony to **Portland City Council** on the **Design Overlay Zone Amendments, Recommended Draft**

The walk-ability of a neighborhood is essential for a healthy community. To allow developers to add more density to our neighborhood without providing their fair share of spaces for services to support that community growth is just bad city management. It would be wreck-less not to address this now because after the properties are developed its too late. The opportunity to keep our neighborhood accessible is now! Please, act in favor of our neighborhood and vote yes to include the proposed amendment for ground floor active use in Arbor Lodge!

Testimony is presented without formatting.
