Testimony to **Portland City Council** on the **Design Overlay Zone Amendments, Recommended Draft**

I am writing to support the amendments. In particular I support amendments that encourage new buildings that are consistent with existing context. It would be extremely helpful to require review for proposed structures higher than 55 feet. Many buildings could be higher than that if made to fit in with other buildings. However, experience with some buildings on Division and Hawthorne shows that design review is needed. Thank you for considering these amendments.
